ACT FOR HOME TEXTILES

### **Harmolan PP**

Harmolan PP is an upcycled yarn fully produced in-house, at our own plant, without the use of water and with minimum use of energy.

### **BCI Cotton**

The standard for sustainable farming practices in the cotton sector, benefiting the environment, the quality and durability of cotton and the communities of cotton farmers.

### **GRS Polyester**

GRS (Global Recycled Standard) certified polyester, made from post-consumer recycled bottles.

### **Lenzing EcoVero**

Lenzing EcoVero is the new standard in eco-responsible viscose production with a much lower environmental impact, leaving air and water cleaner.

### **Linen**

Linen is a strong and natural fibre made from the flax plant. Flax is a renewable source, one that is fast growing, requires no chemicals and has a minimal impact on the planet.

### **Wool**

Wool is a natural and renewable yarn, locally sourced and harmless to the environment. Because the yarn is left unpainted, it is completely biodegradable.
